

**Science – Chemist Hotlist****276225 – Chemist - Michigan**

- Recent Graduate of Michigan State with a Bachelor's in Chemical Engineering
- 4-month internship working with water-based products, polymers and coatings
- 4 months' experience with the formulation of different primer coatings
- 4 months' experience testing different properties such as gloss and surface energy
- Experience with research assistance, analyzing and collecting data

**276508 – Chemist - Michigan**

- Bachelor of Science in Biochemistry and Molecular Biology
- 6 years' experience with the formulation and testing of water-based products for the coatings industry
- 6 years' experience with the applications of liquid coatings and color matching tools
- 5 years' experience testing and formulating dyes and water-dispersible pigments
- Experience working with customer requirements and applying those specifications to enhance products

**272993 – Chemist - Wisconsin**

- Bachelor of Science in Chemistry
- 1+ years' experience in quality control and assurance
- 1+ years' experience testing coatings, silicones, acrylic, and polyurethane products
- 1+years' experience testing via viscosity, percent solids and color checks
- Comfortable working independently in the laboratory

**279879 – Chemist – New York**

- Recent graduate with a Bachelor of Science in Chemical Engineering
- 7 months' experience working in a hair product development laboratory
- 7 months' experience performing quality assurance and analytical testing on hair care products
- 6 months' experience working in an instrument development lab
- 8 months' experience working as a research technician getting exposure to different instrumentation
- Overall 2 years exposure to different laboratory experiences through internships

**269114 – Chemist – Wisconsin**

- Bachelor's degree in Chemistry and Biology along with 11 years of experience
- 7 years' experience in new product development and quality control
- 7 years' experience with batch record review and wet chemistry
- 10 years' experience with instrument validation and analytical experience
- 10 years working in a GMP laboratory
